

Year 5 – Natural Disasters – Project Day 5.1.20

Choose a task for today from the menu below... or feel free to do your own research project.

Natural Disasters	Research... Choose a volcano or earthquake. Write and draw in detail about the volcanic eruption or the earth-shattering earthquake.	Present... The data from a recent earthquake. Can you give me the details on the largest earthquakes across Japan? What is the ring of fire?	Create... A model showing tectonic plates. Can you use junk modelling, paper, glue, playdoh to show me how tectonic plates move?	Design... A building which has been reinforced to withstand an earthquake. Can you find out what type of structures handle earthquakes best.

Extension: Continue to write about Ben's experiences, actions and inner thoughts when he saw the Tsunami for the first time.

Ben could see the wave – a wall of water heading towards him...

Please attend a Zoom session to share your research/work at 2.30pm.

The details of the Zoom are in a parent mail.
