

Wednesday	<u>Maths</u>
	<p>Today we will be starting our new unit in Maths which is Length and Perimeter. We will be starting our unit by measuring length. Show your child the Maths video attached to this post and stop it at each question and help your child to answer them in their Home Learning Book. The answers will be posted tomorrow.</p>

Wednesday

English

As you know, we have begun reading *The Slimy Stuarts*. The information we have read so far is all about James I. Later this week, your child is going to be writing a biography of James I. In order to do this, they will need to research some facts about his life. Today, I would like to use the Internet or any other sources to answer the questions below in full sentences.

1. When was he born?
2. When did he become king?
3. How old was he when he became king?
4. When did he die?
5. How long was he king for?
6. Who did he marry?
7. How many children did he have?
8. What were his children's names?
9. Was he a popular king? Explain your answer.
10. Who became the monarch after he died?

Wednesday	<u>Handwriting</u>
	<p>Today, your child is going to practicing writing this week's spelling words in their best handwriting. Watch the video attached with your child and help them to practice writing two lines of each word. When they've finished, they can tick the best word on each line. Remind them that ascenders touch the top of the line and descenders go below the line. They must also make sure they have a clear finger space between each word. Good Luck.</p>
